Molecular Research of Vascular Aspects in Pregnancy

Message from the Guest Editor

Although many aspects of pregnancy have been studied and described in detail, many others remain elusive. One such aspect concerns the molecular mechanisms involved in the gestational adaptation of the cardiovascular system. How these molecular pathways and signals can be altered in normal pregnancies vs. those complicated by gestational diseases such as preeclampsia/hypertension, intrauterine growth restriction (IUGR), and diabetes is not well understood. The aim of this Special Issue is to provide a perspective on our current understanding of cardiovascular adaptation in physiological and complicated pregnancies, with a focus on the molecular level, and to highlight the most promising and novel areas of research.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
