

Special Issue

New Trends in Green Synthesis of Nanomaterials

Message from the Guest Editor

We invite you to contribute papers to the growing research field of the green synthesis of nanomaterials. For this Special Issue in particular, the themes cytotoxicity and drug delivery are of special interest. It is well known that it takes at least 10 years, or sometimes even longer, to fully recognize the true damage that a material can provoke; recent studies of the cytotoxicity of nanomaterials have shown how this cytotoxicity can cause more damage than good to humans, animals, plants, and to the world in general. If you are working in this field and would like to publish your most recent results in this Special Issue, we would be delighted to receive your work. In addition, research focused on drug delivery, either using nanoparticles exclusively or using nanoparticles as the drug delivery material, is also welcome for submission to this Special Issue.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
