

Special Issue

Targeting the Wnt Signaling in Cancer

Message from the Guest Editor

Cancer is a heterogeneous disease that promotes cell growth, disables cell death mechanisms, and evades immune surveillance and therapy. Wnt signalling orchestrates development and tissue homeostasis, and its dysregulation is reported in cancer. Members of the Wnt family of secreted proteins are known to play a significant role in determining the “stemness”, epithelial mesenchymal transition (EMT), acquisition of neuronal characteristics and invasiveness of carcinomas such as brain tumors, melanoma, breast, prostate, liver, pancreatic, and colon cancers.

In this special issue of *IJMS*, our objective is to explore our understanding of the mechanisms of Wnt signalling and its members both in cancer metastasis and drug resistance. Authors are invited and welcome to submit original research papers, reviews, and short communications.

Guest Editor

Dr. Pinar Uysal-Onganer

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
