

## Special Issue

# Current Research for Heart Disease Biology and Therapeutics (Third Edition)

### Message from the Guest Editor

This Special Issue, led by and assisted by Dr. Serena L'Abbate from the Institute of Clinical Physiology at the National Research Council (IFC-CNR) in Pisa, Italy, aims to assess recent advances in developing and validating therapeutic strategies for heart disease. We welcome research papers and comprehensive review articles on various topics, including conventional drug strategies and novel therapeutic approaches, such as RNA-based therapies, dietary supplementation, and drug delivery systems that target molecular pathways involved in the progression of heart disease.
