

## Special Issue

# New Insights into the Immunopathology of Autoimmune and Drug Induced Liver Injury

### Message from the Guest Editor

We invite you to submit innovative and scientifically valuable papers for inclusion in the Special Issue "New Insights into the Immunopathology of Autoimmune and Drug Induced Liver Injury" of the *International Journal of Molecular Sciences*. The study of "how, when and why" the immune system is activated in response to environmental agents, due to air pollutants, xenobiotics or even drug preparations, whether medical in nature or sold over the counter, is an area of great scientific interest that is rapidly expanding. This Special Issue will help researchers and clinicians to recognize immune dysregulation early and take appropriate therapeutic measures to halt its progression. Awareness of this morbid pathogenesis and its clinical syndromes can be life-saving. We are particularly interested in studies reporting the agents responsible, as well as in those prescribing the pathogenetic mechanisms that lead to immune system chaos. Novel therapies should also be analyzed. Review articles, research articles, and interesting short communications are welcome.

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
