# The Role of Dopamine Neurotransmitters in Neurological Diseases: New Sight

### Message from the Guest Editor

Dopamine is one of the most important catecholamine neurotransmitters in the central nervous system and plays an important role in regulating many functions of the brain, such as motor, cognition, emotion, positive reinforcement, feeding and endocrine functions. Dopamine is closely related to the pathogenesis of neurological diseases such as Parkinson's disease, schizophrenia, Tourette's syndrome, drug addiction, learning and memory deficits, and attention deficit hyperactivity syndrome. Among them, schizophrenia is mainly related to dopamine dysfunction, and treatments targeting the central nervous system dopamine pathway have also been developed. Most frequently used antipsychotics primarily reduce the level of dopamine activity.

### Guest Editor

Prof. Dr. Yingfang Tian

College of Life Sciences, Shaanxi Normal University, Xi'an 710062, China

### Deadline for manuscript submissions

closed (20 March 2025)

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
