

Special Issue

Advances in the Molecular Diagnosis and Treatment of Pancreatic Cancer

Message from the Guest Editors

In this Special Issue, we examine the current landscape of molecular diagnosis and targeted treatment strategies for pancreatic cancer, highlighting the utility of precision medicine for increased understanding of cancer mechanisms. We highlight recent advancements in molecular profiling technologies, the identification of novel biomarkers, and the development of innovative, targeted therapies. These studies have led to the emergence of newer types of clinical trials, such as the “basket” trial, which have shown promise in the more rapid acquisition of data on the effectiveness of treatment modalities. Furthermore, we address the challenges and limitations associated with molecular diagnostics and targeted therapies in pancreatic cancer, as well as future directions for research and clinical practice.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
