Progress in New Agents to Treat Breast Cancer

Message from the Guest Editor

Breast cancer is the most common cancer among women worldwide; however, breast cancer incidence varies. Overall, breast cancer survival rates have been increasing, in part due to breakthrough therapeutics that target sites within tumors that cells rely on for growth. Chemotherapeutic agents continue to demonstrate efficacy, particularly when combined with targeted therapy agents. However, chemoresistance onset and toxicities limit the utility of chemotherapeutic agents. Resistance can occur even among patients who use targeted therapy. Furthermore, disparities in breast cancer survival exist based on patient ancestry. This Special Issue explores research progress of new drugs designed to treat breast cancer more effectively.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
