

Special Issue

Correlation Between Oxidative Stress and Inflammation

Message from the Guest Editor

This Special Issue aims to present and discuss the advancement of research and innovative therapies involving the process of oxidative stress and inflammation in different environments and pathologies and exploring emerging diseases and pathophysiology that both reactive oxygen species and pro-inflammatory markers can modulate. We request high-quality original research articles and review articles focused on the most recent research that points to new discoveries about the correlation of oxidative stress and inflammation, as well as innovative mechanisms related to modulating this scenario for future therapeutics. Potential topics include, but are not limited to, the following: Autoimmune diseases, inflammatory processes and oxidative stress; Purinergic system related to anti-inflammatory and antioxidant potential in neoplasms; Neurodegenerative diseases and the modulation of neuroinflammatory and oxidative stress in the neuronal environment; Immune system and the oxidative and inflammatory process.

Guest Editor

Dr. Margarete Dulce Bagatini

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
