

Special Issue

The Relationship, Mechanisms, and Treatment Strategies of Diabetes Mellitus and Related Diseases

Message from the Guest Editor

The intersection of diabetes mellitus and related diseases represents a complex and multifaceted field, increasingly in the focus of molecular research. This special issue aims to explore the intricate relationships, underlying mechanisms, and innovative treatment strategies at the molecular level. It covers a range of topics, including the genetic and epigenetic basis of diabetes, the role of microRNAs and incretin hormones, as well as the latest advancements in targeted therapies and immunotherapy. This call for papers invites contributions that offer novel insights and perspectives on this critical area of biomedical research.

Guest Editor

Dr. Maria Kokozidou

Institute of Anatomy and Cell Biology, Paracelsus Medical University, Nuremberg and Salzburg, Prof. Ernst Nathan Str. 1, 90419 Nuremberg, Germany

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
