

## Special Issue

# Insulinoma: From Molecular Mechanisms to Therapies

### Message from the Guest Editors

Insulinomas are rare neuroendocrine neoplasms (NEN) of the pancreas, with an incidence of 1–4 million/year. Although insulinomas are usually benign, they may result in life-threatening hypoglycaemia, and approximately 10% of the tumours present with metastases and a poor prognosis. The diagnostics, localization, and treatment of insulinomas are challenging in many aspects, but recent and ongoing advances, for example, in the fields of molecular pathology and functional imaging, provide us with better tools to tackle these challenges. The scope of this Special Issue is to draw together relevant basic, translational, and clinical research on insulinomas. Authors are invited to submit original and review articles, addressing the progress and state of the art in insulinoma research.

### Guest Editors

Dr. Pia Jaatinen

Department of Internal Medicine, Tampere University Hospital and Tampere University, 233520 Tampere, Finland

Prof. Dr. Johanna Arola

Department of Pathology, University of Helsinki and Helsinki University Hospital, 00290 Helsinki, Finland

### Deadline for manuscript submissions

closed (30 November 2023)

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
