Special Issue

Molecular Pathology and Treatment of Hepatocellular Carcinoma

Message from the Guest Editor

The scope of this Special Issue is to collect papers that can confer a deep understanding of hepatocellular carcinoma (HCC), from its histogenesis to targeted therapy. The submitted papers, original studies, or reviews, should be adapted to the profile of the journal that is centered on biomarkers and the molecular profile of tumor cells. As significant updates can be found in the literature and the prognosis of patients has been optimistically improved in recent years, this Special Issue might be of interest for both researchers involved in basic research and those that work every day with patients diagnosed with HCC. Papers that target the imagistic, histological, or molecular differences between HCC, cholangiocarcinoma, or other primary tumors, as well as liver metastases, are also welcomed.

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
