Protein–Protein Interactions: New Perspectives in Drug Discovery

Message from the Guest Editor

The present Special Issue entitled “Protein–Protein Interactions: New Perspectives in Drug Discovery” aims to show new perspectives, new interactions, drug targets, and draw attention to drug development directions. All new articles describing protein–protein interactions and manuscripts defining negative protein–protein interactions as drug targets are welcome in the special section. Whether the method is a new approach or the use of small molecules, peptides, nucleotide aptamers, protein–protein interactions influencing cell division, cell proliferation, proteinopathy cancer processes or G-protein-coupled receptors and other receptor–ligand and signal transduction pathways. *IJMS* is a journal of molecular science, so pure clinical studies are not suitable for a journal. This Special Issue however, it welcomes submissions of clinical or pure models related to biomolecular experiments.

Guest Editor

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
