

Special Issue

Biomechanics of Cardiovascular Remodeling

Message from the Guest Editors

This Special Issue focuses on new scientific evidence in cardiovascular remodeling, covering its mechanisms and clinical outcomes. Cardiac remodeling plays a key role in the progression of cardiovascular diseases, and most pharmaceutical therapies aim to modify signaling pathways to influence this process. However, many underlying mechanisms remain unclear. We welcome manuscripts on the biomechanical, biochemical, and biophysical mechanisms driving cardiovascular remodeling, as well as studies on pharmacological and interventional approaches (e.g., PCI, device therapy, structural interventions). Research on predictive models, including AI-based approaches, and cardiac imaging studies illustrating remodeling and its consequences are also encouraged. We invite submissions in this field and ensure a swift and thorough review process.

Guest Editors

Dr. Kevin Willy

Department of Cardiology II & III, University Hospital of Münster, Albert-Schweitzer-Campus 1, 48149 Münster, Germany

Dr. Maximilian Doldi Philipp

Medizinische Klinik und Poliklinik I, Klinikum der Universität München, Munich, Germany

Deadline for manuscript submissions

20 March 2026

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
