Molecular and Physiological Determinants of Amyotrophic Lateral Sclerosis

Message from the Guest Editors

Amyotrophic lateral sclerosis (ALS) is a disease associated with both lower and upper motor neuron degeneration and is characterized by severe muscle weakness, eventually culminating in paralysis, and an extremely poor prognosis. Here, we aim to gather contributions from basic scientists and clinical researchers to examine the issue of new physiopathological mechanisms, target molecules or biomarkers in ALS from both perspectives, hence promoting a translational and integrated approach to this problem.

Guest Editors

Prof. Dr. Eleonora Palma

Prof. Dr. Maurizio Inghilleri

Prof. Dr. Marco Ceccanti

Prof. Dr. Gabriele Ruffolo

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
