Bladder Cancer

Message from the Guest Editor

At the first diagnosis of bladder cancer patients, about 75% are diagnosed with non-muscular invasive bladder cancer (NMIBC) and the remaining 25% are diagnosed with muscle-invasive bladder cancer (MIBC) or metastatic bladder cancer. Molecular mechanisms of carcinogenesis, tumor progression, and recurrence are gaining a general understanding due to recent advances in molecular biology and genomic research. However, there remains a need to discover biomarkers for prognosis and predictive diagnosis of bladder cancer progression and recurrence, and challenges for new therapeutics using them remain. This Special Issue on “Bladder Cancer” has the objective of developing an updated investigation and rationale of biological behavior of bladder cancer focusing on molecular biology, cell biology, bioinformatics, biomarkers, diagnostics, and therapeutics.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
