

Special Issue

Advanced Research of Amyloids

Message from the Guest Editor

It is my pleasure to invite you to submit a research article, short communication, or review article to this Special Issue. This Special Issue will focus on recent advances in research on amyloid proteins, including microbial amyloids, using a variety of studies: in vivo, in vitro, molecular biology, and in silico. This Issue will cover a wide spectrum of topics related to advanced methods for the structural biology of amyloids, the molecular mechanisms and kinetics of amyloid aggregation, the role of metals in amyloid aggregation, the molecular affinity of amyloids with lipid membranes, and novel therapeutic strategies in amyloid diseases.

Deadline for manuscript submissions

closed (31 January 2022)

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
