

# Special Issue

## Carotenoid Metabolism

### Message from the Guest Editor

Carotenoids and their derived products constitute one of the largest class of molecules in nature and are important to the color, flavor, and fragrance of fruits and flowers, and are key metabolites in many other organisms. For this Special Issue, we are inviting manuscripts that address the role(s) of carotenoids and apocarotenoids in biological organisms. We welcome research papers, technical publications demonstrating proof-of-concept techniques (for example, to quantify carotenoids and apocarotenoids at low concentrations in diverse tissues), as well as reviews providing up-to-date knowledge to new readers.

---

### Guest Editor

Dr. Andrew J. Simkin

Department of Genetics, Genomics and Breeding, NIAB-EMR, New Road, East Malling, Kent ME19 6BJ, UK

## About the Journal

### Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
