

Special Issue

Biomolecules for Nanodelivery

Message from the Guest Editors

Nanomedicine is the medical application of the knowledge and tools of nanotechnology to treat and prevent variety of emerging or exsisting diseases. It involves the use of wide-ranging nanoscale materials. For this Special Issue, manuscripts will be accepted ranging from molecular or genetic biologicals to biochemical, chemical or bioengineering concepts. However, in each case, the materials/biomaterials are directly relevant to biotechnological therapeutic systems. Papers presenting the multidisciplinary application of nanomedicine, which would not be suitable for publication in a journal devoted to a single discipline, are particularly welcome. The original research and review articles describing the application of nanomedicine for cancer, neurological diseases and infectious diseases are strongly encouraged. The following areas will be the main focus of this Special Issue:

- Nucleic Acids/Molecular Biology
- Nanomedicine
- Biochemical Engineering/Bioengineering
- Medicinal Biotechnology

Guest Editors

Prof. Dr. Sang-Kyung Lee

Dr. Irfan Ullah

Dr. Qurrat Ul Ain

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
