

## Special Issue

# Calcium Signals in Plant Cells

### Message from the Guest Editor

The second messenger calcium is central to a vast array of signalling pathways in plants. In particular, calcium acts to ensure appropriate recognition of primary stimuli to activate the appropriate plant response.

Understanding the mechanisms underpinning calcium signalling is of both academic and agricultural importance. This Special Issue will explore the key concepts and questions of the moment, namely: How calcium are signals generated? How is information encoded through calcium? How is information transmitted through calcium signalling decoded by plant cells? How does calcium regulate responses to primary information from the environment, such a stress, and to endogenous signals such as circadian clock?

---

### Guest Editor

Prof. Dr. Stanley J Roux

The University of Texas at Austin, College of Natural Sciences, 100 E. 24th Street Stop A5000 Austin, TX 78712, USA

## About the Journal

### Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Editor-in-Chief

Prof. Dr. José L. Quiles  
Department of Physiology, Institute of Nutrition and Food Technology  
"Jose Mataix", Biomedical Research Center, University of Granada,  
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
