

Special Issue

Chronic Rhinosinusitis: Aetiology, Immunology and Treatment

Message from the Guest Editor

This Special Issue will focus on the advances in the field of mucosal immunity and their impact on our understanding of the development of CRS and immunologic effects of biologics for the treatment of CRS. *IJMS* is a journal of molecular science, so the pure clinical studies are not suitable and biomolecular experimental studies are welcome.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
