

Special Issue

Channels and Transporters in Cells and Tissues 2.0

Message from the Guest Editor

This Special Issue “Channels and Transporters in Cells and Tissues 2.0” will still focus on the function and regulation of membrane transport proteins across all living organisms, including their potential use as drug targets. Authors are invited to submit original research and review papers addressing the topic of this Special Issue. Keywords

- Membrane transport and regulation;
- Structure–function relationship;
- Water, ions, and solutes transportation;
- Membrane permeability;
- Osmoregulation;
- Chemical modulation;
- Therapeutic applications;
- Drug discovery;
- Disease;
- Prokaryotic and eukaryotic cells

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
