Special Issue

New Research on Endocrine Regulation of Brain Development

Message from the Guest Editors

This issue of the journal is dedicated to the discussion of the regulation of prenatal and postnatal development of the brain by endocrine factors, for which we invite contributions from researchers and clinicians of original research papers, review articles, or commentaries related to this topic. Highlights in the field of normal and abnormal brain development, and the role(s) of maternal, placental, and fetal endocrinology will be addressed.

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
