G Protein-Mediated Signalling in Plants

Message from the Guest Editor

This Special Issue of IJMS will provide a comprehensive overview of this exciting and emerging field of G-proteins for a better understanding of their critical role in mediating signal transduction in plant cells. The current Special Issue is open to submission of previously unpublished experimental, theoretical, prospective, and review papers.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
