

## Special Issue

# Heavy Metal Toxicity in Humans

### Message from the Guest Editor

Exposure to toxic heavy metals is a significant human health issue throughout the world. Heavy metals are used widely in chemical, agricultural, and technological applications and, thus, areas of the environment are contaminated heavily. Humans are often exposed to these heavy metals via occupational and dietary routes. Frequently, this exposure leads to detrimental health effects in humans. This Special Issue focuses on the toxicity of various heavy metals in humans. We welcome submissions, including original papers and reviews, on this topic.

## About the Journal

### Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
