

## Special Issue

# Advances of Ion Channels in Inflammatory Diseases and Cancer

### Message from the Guest Editor

This Special Issue focuses on understanding the roles of ion channels in immune and cancer cells under pathological conditions and microenvironments. Ion channels are potential drug targets for the treatment of acute and chronic inflammatory diseases including cancers. Examples of inflammatory diseases include allergies, asthma, autoimmune diseases, inflammatory bowel disease, and tissue fibrosis. In cancers, non-cancer cells such as immunostimulating and immunosuppressive cells are included. Comprehensive review articles are also welcome.

---

### Guest Editor

Prof. Dr. Susumu Ohya

Department of Pharmacology, Graduate School of Medical Sciences,  
Nagoya City University, Mizuho-ku, Nagoya 467-8601, Japan

## About the Journal

### Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
