

Special Issue

Molecular Research in Medical Genetics

Message from the Guest Editor

Research in Medical Genetics is an important target to find the causes, inheritance and treatment of genetic disorders. To this aim, the molecular approach includes various techniques, including some new-generation ones that have showed very promising results. This Special Issue on “Molecular Research in Medical Genetics” will cover a selection of recent research topics and current review articles related to molecular mechanisms in human genetic diseases. Experimental papers, up-to-date review articles, and commentaries are all welcome.

Guest Editor

Dr. Emanuela Viggiano

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
