Recent Advances on Meningiomas

Message from the Guest Editor

It is becoming increasingly apparent that complex histological and biomolecular mechanisms play a role in the genesis and recurrence of intracranial meningiomas. Whenever a high extent of resection is achieved in low grade meningiomas, it is clear that recurrence rates are reduced. The problem is more complex with intermediate-to-high grade lesions, where recurrence is the result of a complex process involving tumor biology and location, surgical extent of resection and the patient characteristics. The implementation of next-generation diagnostic tools, such as the analysis of the methylome, is certainly promising but has not yet achieved worldwide application. Here, we invite you to submit original and review articles on the topic, focusing on the biomolecular aspects of meningiomas when it comes to their diagnosis, treatment and prognosis.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
