Mesenchymal Stem Cells and Dendritic Cells in Immune Diseases and Cancers

Message from the Guest Editor

Many studies have indicated that HSCs primarily reside in endothelial cells and pericytes of the vasculature, and some expansion protocols have been proposed based on this. For this relationship in distribution, some in vitro studies have indicated that MSCs could interact with various immune cells, especially DCs, to modulate immune systems. However, there are still too few studies regarding this to make conclusions. Therefore, we sincerely welcome all scholars worldwide to discuss this interesting issue; we welcome original articles and review articles regarding the following topics:

- Interaction between MSCs and DCs.
- Cellular therapies of DCs or MSCs in treating immune-related disorders or cancers.
- Isolation, purification, expansion, and differentiation of MSCs or DCs.
- Clinical studies regarding the application of MSCs or DCs in treating cancers or immune-related disorders.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
