

Special Issue

Molecular Regulators of Metabolic Homeostasis during Development and Obesity-Associated Diseases

Message from the Guest Editor

This Special Issue aims to provide novel insights into the physiological and pathological aspects of healthy body weight management and adiposity. To this end, we welcome experts in the field to contribute research articles and critical reviews on molecular and cellular mechanisms involved in the regulation of metabolic homeostasis and imbalance with a special attention to the pathophysiology of metabolic disorders, such as diabetes, dyslipidemia, and obesity-related cardiovascular complications.

Guest Editor

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
