microRNA Regulatory Network

Message from the Guest Editor

MicroRNAs (miRNAs), short non-coding RNAs, have been shown to be involved in the multiple biological functions and various diseases. This Special Issue seeks reviews and original papers covering their biological mechanisms, and identifying the roles of microRNA in controlling various phenomena emerging from the networks and miRNA regulation in various diseases.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
