

Special Issue

Biochemistry, Molecular Biology and Druggability of Proteins

Message from the Guest Editors

The proteins are probably the most essential biomolecules for all life processes. In the last 20 years, huge progress with genomics, proteomics, and other OMICS has led to a deep understanding of most aspects of these important biomolecules. However, their study remains as fascinating as ever, because the exact functions of many proteins are not well understood, the regulatory processes and the interactions between proteins have been investigated in detail only recently, and the applications of this research have produced relevant results only in the last decade. These and other aspects related to molecular biology, regulation, structure, and function, as well as druggability of proteins, will be dealt with in this special issue of *IJMS*. Potential authors are invited to present their latest research in all these fields.

Guest Editors

Prof. Dr. Claudiu T. Supuran

Prof. Paola Gratteri

Prof. Silvia Selleri

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
