Special Issue

Current Use and Perspectives of Molecular Assessment in Breast Cancer

Message from the Guest Editors

In the last few decades, the role of molecular assessment techniques in breast cancer has deeply changed. The goals achieved and fields of application have now become virtually unlimited. Prognosis definition deserves a mention, along with the potential held in informing decision-making processes and treatment administration across different breast cancer settings. Within such an interesting frame, a specific focus will be on the following subtopics:

- Early disease;
- Locally advanced/metastatic disease;
- Molecular assessment combined with groundbreaking techniques in the discovery/validation phase of breast cancer prognostic/predictive biomarkers;
- The bridging role of molecular assessment between the preclinical and clinical setting.

We welcome submissions of original research papers and reviews on this topic of interest, with a highlight on molecular research and findings.

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
