Interaction of Biological Molecules

Message from the Guest Editor

Topics of special interest include the interaction between any biological molecules, especially protein-protein, protein-DNA, protein and the ligands, effectors, herb molecules, etc. The interaction between biological molecules and some nano-particles with biological activity is also included.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
