Mechanisms of Disease Progression and Drug Resistance in Myeloid Malignancies

Message from the Guest Editors

Recent advances in laboratory and clinical science have improved outcomes for patients with myeloid malignancies. Despite this success, clinical challenges remain, and there is a great need to identify novel molecular targets and therapies to prevent disease progression and drug resistance. This special issue of International Journal of Molecular Sciences seeks recent original research in the field of myeloid malignancies, including the development of new insights and/or reviews in the field. We are particularly interested in leukemia stem cell research, novel therapeutics, new biomarkers, and epidemiological studies. Please contact the guest editors if you would like to discuss an idea for a paper prior to submission.

Guest Editors

Dr. Anna Eiring

Paul L. Foster School of Medicine, Texas Tech University Health Sciences Center at El Paso, El Paso, TX 79905, USA

Dr. Jamshid Khorashad

Centre for Haematology, Department of Immunology and Inflammation, Imperial College London, London, UK

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
