

Special Issue

Nanobiomaterials for Drug Delivery, Cancer Therapy and Diagnostics

Message from the Guest Editor

Manuscripts are invited for a Special Issue devoted to nanoparticles and nanostructured devices for targeted drug delivery, gene delivery, cancer therapy, and diagnostic imaging. Manuscripts describing original research and recent developments in topical areas such as synthesis, functionalization, mechanisms, and applications of these systems are of particular interest.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
