Novel MSC Perspectives: From Cell Regulation to Tissue Regeneration 2.0

Message from the Guest Editors

Publish your work on mesenchymal stem cells (MSCs) with reduced costs in International Journal of Molecular Sciences (Impact Factor 4.183). All attendees can submit a manuscript with a discount (CHF 200). Papers will be published continuously online (as soon as accepted) and will be listed together on the special issue website. Please kindly submit your full paper through the online manuscript submission and editorial system (first-time users are required to register themselves) at: <http://susy.mdpi.com/>. To benefit from the discount, please note the conference information in your cover letter when submitting. We invite investigators to contribute with novel findings in the field of MSCs and therefore help to bridge the gap between biology of regeneration and regenerative medicine and to encourage a novel progression towards MSC-based translational research. About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
