

## Special Issue

# Intracellular Organelle Rearrangement Induced by Pathogenic Infections

### Message from the Guest Editor

Many pathogens have evolved to assume an intracellular mode of infection for their growth and replication; however, several intracellular antipathogen responses potentially prevent the growth of pathogens, or sometimes these responses lead to the elimination of intracellular pathogens. Recent studies have reported that molecules localized in organelle regulate these antipathogen responses, and intracellular pathogens induce the dynamic rearrangement of organelles to modify or sometimes neutralize its functions for their efficient growth. Furthermore, some bacteria modify autophagic machinery to disable the antibacterial response of the cell, and viruses damage mitochondrial proteins involved in innate immune signaling to neutralize antiviral responses. This Special Issue focuses on organellar rearrangement resulting from the competitive survival of intracellular parasites and to understand the molecular mechanisms underlying the development of novel antipathogen strategies.

### Guest Editor

Dr. Eiji Morita

Department of Biochemistry and Molecular Biology, Faculty of Agriculture and Life Science, Hirosaki University, 3 Bunkyo-cho, Hirosaki-shi, Aomori 036-8561, Japan

### Deadline for manuscript submissions

closed (31 March 2021)

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,  
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle  
Marche, Via Ranieri 65, 60100 Ancona, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
