

Special Issue

The Functional Landscape of p53

Message from the Guest Editors

Mechanistically, p53 acts as a transcription factor, coordinating expression of downstream target programs in a context-specific manner, but also steers cellular responses through protein-protein interaction networks. This functional diversity places p53 square in the centre of various physiological and pathological processes way beyond tumor suppression. In this special issue, we want to solicit research and review articles, exemplary of the broad functional landscape of p53. We welcome submissions that pinpoint cutting-edge questions in the area of p53 biology, including the regulation of p53 activity, context-specific p53 signaling and/or novel roles of p53 in health and disease. Results coming from (multi)-omics approaches are particularly encouraged.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
