Molecular Effects of Phytochemicals on Cholesterol Metabolism Genes

Message from the Guest Editor

Dear Colleague, In this Special Issue, we invite paper submissions regarding the molecular effects and underlying mechanisms of phytochemicals on the modulation of cholesterol metabolism genes for the management of lipid dysregulation in the prevention or treatment of chronic diseases.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
