Precision Medicine in Ocular Diseases

Message from the Guest Editors

This Special Issue is focused on the genetics of ophthalmic disease and its application into the clinic. Potential topics include, but are not limited to, the following: precision medicine, genetic statistics, polygenic risk score for all ocular pathologies (i.e., age-related macular degeneration, cataract, glaucoma, diabetic retinopathy, uveitis, Sicca syndrome, and inherited retinal dystrophy).

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
