Plant Protein and Proteome Atlas--Integrated Omics Analyses of Plants under Abiotic Stresses

Message from the Guest Editors

This Special Issue entitled “Plant Protein and Proteome Atlas: Integrated Omics Analyses of Plants under Abiotic Stresses” will cover various aspects of plant proteins, ranging from agricultural proteomics, to structure and function of proteins, novel techniques and approaches for protein identification and quantification, novel techniques for PTMs, and new insights into proteomics. It will be issued in collaboration with the 7th National Plant Protein Research Conference (China) and the 5th Meeting of Asia Oceania Agricultural Proteomics Organization (AOAPO) (<http://bio.ujn.edu.cn/huiyi/en/>), publishing some selected high-quality papers from these conferences. In the research topics of this Special Issue, we would like to include crop plants as well as model plant species used in fundamental research of stress physiology and biochemistry. We welcome the submission of original research articles, deep reviews, mini-reviews, perspectives, and opinions related to abiotic stress resistance of different plant species. Contributions from young investigators and early-career scientists are especially welcome.

Guest Editors

Prof. Dr. Tingyun Kuang

Prof. Dr. Xuchu Wang

Prof. Dr. Xiaochun Qin

Prof. Dr. Shaojun Dai

Prof. Dr. Pingfang Yang

Dr. Ling Li

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
