

Special Issue

Psoriatic Arthritis and Skin Diseases: Pathogenesis and Therapies

Message from the Guest Editors

We welcome submissions of original and review papers on molecular mechanisms involved in pathogenesis and treatment of those diseases to the Special Issue titled: "Psoriatic Arthritis and Skin Diseases: Pathogenesis and Therapies". Clinical studies with biomolecular experiments as well as case reports/series with a molecular element are also invited. Our aim is to present current views and results of experiments to provide the readers with an overview of the state of the art in this topic.

- psoriatic arthritis
- autoinflammatory skin diseases
- psoriasis
- atopic dermatitis
- biological medications
- inflammation
- therapy
- genetics

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
