Challenges of Radiation Biology for Cancer Management

Message from the Guest Editors

We are leading a special issue "Challenges of Radiation Biology for Cancer Management" in IJMS. This Special Issue will include original articles as well as reviews on these topics. Works reporting new insights on the biological effects of radiation related to tumor metabolism, cancer stem cells, tumor microenvironment, and new anti-cancer therapeutic approaches are particularly encouraged. We welcome your contributions.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
