

## Special Issue

# Rare Disease Genes and Genomics

### Message from the Guest Editor

Rare and undiagnosed diseases are an extremely important and rewarding topic of research not only in medical care but also in basic and translational science. Nevertheless, there are about 4000–6000 different rare diseases that remain undiagnosed and about 10,000 genes that have not yet been annotated. The best way to progress the science in this field is to work with those who are affected by these rare diseases. In this Special Issue, papers reporting original research on humans related to new gene discovery, regulatory mechanisms, and discoveries associated with new genomic approaches will be published. New phenotypes that have not been observed to date are welcome as well. We welcome original research on rare cancers, but reviews are also invited. Prof. Dr. Bela Melegh

### Guest Editor

Prof. Dr. Melegh Béla

University Medical School of Pecs, Orvosi Genetikai Intézet, Pecs, Hungary

### Deadline for manuscript submissions

closed (28 February 2021)

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
