New Regulators and Modulators of MicroRNA 2022

Message from the Guest Editor

We invite authors to submit both original research and review articles that explore the role of new regulators and modulators of miRNAs. Potential topics include, but are not limited to, the following:

- MicroRNAs as disease markers—the latest advances
- MicroRNA regulation and editing
- MicroRNA regulation of other epigenetic pathways
- MicroRNAs in aging
- MicroRNAs and gut microbiomes
- MicroRNA and redox stress

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
