Rhine-Main Neuroscience Network: rmn²-Oberwesel 2018

Message from the Guest Editors

The biennial meeting of the Rhine–Main Neuroscience Network (rmn²) in Oberwesel 2018 (<http://www.rmn2.de/>) brings together the neuroscience researchers of this area and renowned keynote speakers and particularly encourages PhD or MD students to present their projects to the neuroscience community. The topics of the rmn² meeting in 2018 were:

- Mechanisms of pain persistence and relief
- Gene regulatory mechanisms in brain development and function
- The neuroscience of autism spectrum disorder
- Synaptic plasticity and learning in neuronal networks
- Neurophysiology of cognitive functions

The Special Issue "rmn²–Oberwesel 2018" invites all speakers and Top 10 Poster Presenters to contribute a concise review of the talk or concise introduction into the topic of the Poster. Hence, the Special Issue shall provide a collection of the meeting's highlights.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
