

Special Issue

Molecular Pathological Mechanisms of Skin Cancer

Message from the Guest Editor

Skin cancer shows rising incidence rates. During recent years, new therapeutic options such as targeted therapies and immunotherapies have improved the outcome of patients with advanced skin cancer.

Deciphering the molecular basis of tumor cells and their interaction with other cell types of the body has the potential to contribute to novel therapeutic strategies, which could lead to deeper and longer-lasting clinical responses. In this Special Issue, we will publish reviews and original research that provide new insights into the molecular mechanisms of skin cancer. **Keywords:** Skin cancer; Melanoma; Squamous cell carcinoma; Basal cell carcinoma, Merkel cell carcinoma, Molecule; Targeted therapy; Immunotherapy; Pathogenesis; Treatment; Genetics; Epigenetics; Signaling pathways; Molecular mechanisms

Guest Editor

Prof. Dr. Jochen Sven Utikal

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
