

## Special Issue

# Sodium Intake and Related Diseases

### Message from the Guest Editors

This Special Issue is focused on the role of sodium (salt) in the body's physiological processes. Generally, complex mechanisms regulate sodium concentrations in bodily fluids that involve the cardiovascular and endocrine systems, the central nervous system, and the autonomic nervous system. The mechanisms involved in the regulation of sodium homeostasis will be at the centre of this Special Issue. Some example topics are the mechanisms that influence the action of the sodium-potassium pump, the renal tubular reabsorption mechanisms regulated by hormones such as angiotensin II and norepinephrine and those of elimination, regulated by dopamine and cyclic AMP. The mechanisms involved at the molecular level of the relationship between sodium intake–blood pressure–cardiovascular disease, and stomach cancer, will be one of the focuses of the Special Issue.

---

### Guest Editors

Prof. Dr. Pasquale Strazzullo

Prof. Dr. Antonello Santini

Dr. Massimo Lucarini

Dr. Alessandra Durazzo

Dr. Ginevra Lombardi-Boccia

Dr. Stefania Sette

---

### Deadline for manuscript submissions

closed (20 December 2020)

## About the Journal

### Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Editor-in-Chief

Prof. Dr. José L. Quiles  
Department of Physiology, Institute of Nutrition and Food Technology  
"Jose Mataix", Biomedical Research Center, University of Granada,  
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
