

## Special Issue

# Biomaterials for Soft and Hard Tissue Regeneration

### Message from the Guest Editors

In this special issue, we would like to present new insights into the underlying cellular and molecular interactions of biomaterials for hard and soft tissue regeneration. Particularly, this special issue seeks for studies describing radically new and smart materials, innovative material processing techniques as well as interactions of materials of both classes with the immune system and relations of immune responses to biomaterials with healing processes. Thus, contributions (reviews and/or original papers) on new biomaterials for hard and soft tissue regeneration and cellular or molecular interactions with biomaterials are welcome.

---

### Guest Editors

Dr. Mike Barbeck

Dr. Ole Jung

Prof. Dr. Reiner Schnettler

Prof. Dr. Volker Alt

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
